PROFESSIONAL SUMMARY

React.js Frontend Developer with 1.6 years of experience building scalable, responsive, and API-driven web applications. Skilled in React Hooks, Redux/Zustand state management, component architecture, REST API integration, and performance optimization. Proven ability to deliver end-to-end features, improve UI speed, and collaborate with cross-functional teams.

WORK EXPERIENCE

Junior React Developer

Creators Infotek　　📍 Bangalore

- **Tabib – Online Doctor Appointment & Consultation App (React.js)**
- Built responsive UI screens for doctor listing, appointment booking, and patient dashboard using React.js.
- Integrated APIs for doctor availability, scheduling, authentication, and payments.
- Implemented real-time video consultation using the 100ms SDK with join room, mic/camera controls, and connection handling.
- Created reusable components to improve code consistency and development speed.
- Collaborated with backend and design teams during requirement discussions.
- Managed global state using Redux, Zustand, or Context API, and added validation, error handling, and loading states.

VMS – Vehicle Management System (React.js)

Creators Infotek　　📍 Bangalore

- Developed UI screens for **vehicle onboarding**, **job card creation**, employee assignment, and status tracking using React.js.
- Integrated APIs for workflow operations such as job card updates, employee allocation, and vehicle service progress.
- Implemented user management features including roles, permissions, and authentication.
- Built inventory management modules for vehicle parts, including stock updates, item tracking, and usage logs.
- Created reusable components to ensure UI consistency and reduce development time.
- Worked closely with backend and QA teams to clarify requirements, fix bugs, and improve feature performance.
- Implemented invoice generation for completed job cards, including labor charges, part usage, and final billing summary.

Tritrackz – Logistics Management Platform (React.js)

Creators Infotek　　📍 Bangalore

- Developed UI modules for onboarding workflows including **carriers, brokers, and subscribers** using React.js.
- Implemented user role and permission management to control access across admin, broker, and carrier modules.
- Built RFQ (Request for Quotation) features including **RFQ creation, sharing, bidding, and acceptance** flows.
- Integrated APIs for **bid management**, enabling brokers and carriers to submit bids and track status in real time.
- Worked on **state-based broker–carrier networking**, vehicle assignment, and order conversion after bid acceptance.
- Implemented payment flow screens and integrated necessary APIs for subscription and transaction processing.
- Created reusable components to maintain UI consistency across onboarding, RFQ, and order management modules.
- Collaborated with backend and QA teams to ensure accurate feature implementation, fix bugs, and improve performance.

KEY ACHIEVEMENTS

⚛ **React Performance Optimization**
Improved UI performance by optimizing components and reducing unnecessary re-renders.

⚛ **API Integration & State Management**
Integrated complex APIs and streamlined data flow using Zustand and Redux.

⚛ **End-to-End Feature Delivery**
Delivered complete features like booking, onboarding, RFQ, and job card flows from UI to API integration.

SKILLS

`Html`　`Css`　`JavaScript`　`React Js`
`Node Js`　`Express Js`　`MongoDb`
`Bootstrap`　`Redux Toolkit`　`Figma`
`UI&Ux`　`Git & Github`　`React Query`
`TypeScript`

EDUCATION

B.E – Computer Science and Engineering

Bharath Niketan Engineering College

📅 07/2019 - 06/2023

Higher Secondary

Nadar Saraswathi Higher Secondary School

📅 07/2018 - 03/2019

TRAINING / COURSES

MERN Stack Development Certification

Completed practical training in MongoDB, Express.js, React.js, and Node.js, focusing on full-stack development and API integration.

React.js Advanced Course

Trained in advanced React concepts including hooks, state management, performance optimization, and reusable component architecture.

PASSIONS

🌿 **Frontend Development**
Exploring modern UI/UX patterns, responsive design, and performance-focused web development.

🌿 **Continuous Learning**
Enthusiastic about learning new tools, frameworks, and technologies to improve development skills.
